NOGALES, Ariz., Nov. 27.—Nogales, Sonora, today presented a desolate appearance following yesterday's battle between Villa and Carranza troops.

The bodies of many Villa soldiers remained where they fell, shot down either by the fire of American soldiers, across the international line, or by Carranza troops who occupied the town.

Major General Frederick Funston today ordered the soldiers of the Twentieth infantry, who arrived from Douglas to reinforce the border patrol to make camp near the international line where yesterday one American trooper was killed and two others wounded in an engagement with Villa snipers, after the main Villa forces had evacuated Nogales. He said the Seventh regiment would arrive from Douglas tonight.

WASHINGTON, Nov. 27.—The German embassy, according to information today from an authoritative source, resents the accusations which are understood to have been against Captain Karl Boy-Ed, man naval attache here, in the trial in federal court at New York of officials of the Hamburg-American line. It was said Ambassador Von Bernstorff was preparing to file a vigorous complaint with the state department at the conclusion of the trial asking at least for something in the nature of a retraction, and possibly for an apology.

The German emosasy, it is understood, has not yet decided just what form the protest will take. A copy of the stenographic report of the remarks of counsel for the government and the testimony given at the triaf is understood to have been ordered from New York so that officials of the embassy may know exactly what has been said in the court room.

London's Cheerful View of the Greek Situation is Succeeded by a Reaction.

TACTICS NOT ABANDONED

Greece Fails to Guarantee Security and Liberty to the Allied Troops.

LONDON, Nov. 27—London's cheerful view of the Greek situation prevalling opinion at the present time is that the press and public jumped too quickly to the agreeable conclusion that Greece would con-cede readily all the allied demands.
